

11" RADAR SIGNS

OB Traffic offers 2 11' radar signs. The *SafePace 100*, and the brand new *SafePace Evolution 11*.

BOTH ARE COMPATIBLE WITH:

- AC, battery or solar power
- Traffic data and reports
- SafePace Cloud remote access
- Universal mounting bracket
- Beacon system for school zones
- Cruiser LT mobile trailer
- Moveable sign dolly
- Sign hitch

SafePace radar speed signs are designed to slow cars down, to make streets safer for everyone. Speed signs have been proven to be effective, particularly with today's highly visual, often distracted drivers.

Also known as speed display signs, driver feedback signs, and "your speed" signs, radar signs operate on the feedback loop theory: when people are presented with information about their performance, they tend to notice and improve.

All radar signs are SafePace Cloud Ready.

SAFEPACE 100

NEW

SAFEPACE EVOLUTION 11

SAFEPACE 100 Compact Entry-Level Speed Sign

The Traffic Logix SafePace 100 is the radar sign that fits your budget. This compact radar speed sign offers exceptional visibility and power efficiency in a lightweight, portable solution.
